

**U.S. Department of Energy
Contracts Containing Specifications of Designated Products
December 2009**

Policy

The U.S. Department of Energy has general information on incorporating specifications of designated products on our Environmentally Preferable Purchasing website (<http://www.hss.doe.gov/pp/epp/epspecs.html>).

On June 29, 2009, the U.S. Department of Energy Headquarters issued five template clauses, which were sent to all DOE sites. For language for Architecture Engineer, Construction, Janitorial Services, Computers, and Service contracts link to <http://www.management.energy.gov/documents/Flash2009-49Attachment.pdf>.

The contracts listed below are examples that illustrate how the Department and its prime contractors integrate preferred procurement specifications supporting DOE operations.

Contracts

Awd/ Renewal Date	Contract/Solicitation Name	Contract/ Solicitation #	Designated Products Specified	Scope of Contract	FAR Clause Reference d Y/N	Spec in SOW Y/N
